

## SCIL 101 Waiver Policy

Recently, the CASNR Curriculum Committee held its annual planning meeting for the 2018-2019 year. One of the topics of discussion was SCIL 101, a required course in the CASNR core. The CASNR Curriculum Committee values the learning outcomes that this course provides for all CASNR students, but also recognizes the need for consistency in the way the substitutions/waivers are handled for transfer students. The CASNR Curriculum Committee approved the following policy regarding waivers for SCIL 101:

1. The advisor may waive SCIL 101 for students transferring into CASNR from another university if the student has already completed 53+ credit hours. As in the past, this waiver will be done automatically in degree audit.
2. The advisor may waive SCIL 101 for students transferring into CASNR from within UNL if the student has already completed 53+ credit hours. We are unsure if degree audit will be able to do this waiver automatically; a substitution/waiver form will likely still be required.
3. Beginning with **first time freshmen** entering CASNR in the Fall, 2018 semester, SCIL 101 may not be waived under any circumstances.
